This is an excellent opportunity for children rising from primary to elementary as well as elementary aged children to reinforce their learning and continue their academic skills in reading, handwriting, language, math, science, history and cultural subjects. While mornings are dedicated to educational classes, afternoons are devoted to the pursuit of personal interests and recreational activities. **We strongly recommend that all rising first graders plan to attend these sessions.** Students will have the opportunity to work with Montessori materials and experience enriching activities as they explore their new environment.
